School Assessment Plan 2023–2024, Grade 10 to Grade 12

At Edmonton Public Schools, we're committed to success, one student at a time. One of the ways we help all students be successful is by always improving the way we assess and evaluate what students learn. We also want to improve how we report back to you about how your child is doing at school.

This guide will help you understand:

- responsibilities of staff, students and parents/guardians.
- how we will tell you about your child's progress and learning.
- how we assign grades/marks to your child.
- how your child is assessed.
- the steps we take if your child's work is missing or not finished.

What is assessment?

In this plan, we use the term assessment to describe the process of determining what students have learned, and how well they have learned it. Assessment is not just about tests and grades.

Assessment means gathering information about what your child knows, understands and is able to do based on the Alberta Programs of Study (curriculum) or their Individualized Program Plan (IPP). Teachers cannot base grades/marks on your child's behaviour, effort and work habits unless those behaviours are outlined in the Alberta Programs of Study for a specific subject.

To find out where your child is at in their learning, teachers use many tools. Conversations, observations and student work are just some of the ways teachers determine students' strengths and where they might need extra help. These activities—conversations, observations and the products students create—help teachers shape their lesson plans. They guide *how* they can help every student meet their learning goals. The activities also help inform the teacher's understanding when making decisions about grade level of programming, course recommendations or grades/marks. The collection of observations, conversations and student work allows teachers to give you a clear and accurate picture of your child's progress in school.

How to support your child's learning

As a parent or guardian, you are your child's first teacher. So, understanding how your child is doing in school is important. Read this guide, and contact the school or make an appointment to see your child's teacher or principal if you have any questions.

Supporting Student Success

We all have a role to play in helping your child be successful.

You can support your child's learning by:

- working in partnership with school staff.
- providing a quiet place for your child to study at home.
- staying informed and keeping in touch with school staff. This includes reading newsletters and other school materials going to parent-teacher conferences.

Teachers will help your child succeed by:

- providing programming that's suitable for your child.
- providing many opportunities and different ways for students to show what they know.
- giving students who've missed important assessments and activities the chance to complete the work.
- clearly explaining what's expected of students in all courses and how student work will be graded/marked (i.e., course outline).
- keeping detailed, accurate notes describing your child's successes and challenges.
- communicating with you regularly about your child's progress and achievement.
- providing opportunities for you to be involved in your child's learning.

Students have a responsibility for their own learning and are expected to:

- come to school every day and on time.
- finish their assignments, projects and tasks to the best of their ability.
- participate in activities to celebrate learning.
- show that they're learning.
- take advantage of chances to revise or redo assignments or tests so they can show growth in their knowledge and skills.

Our Communication Plan for Reporting Progress

There are many ways we help you stay informed about your child's learning throughout the year. We encourage you to review your child's reports and attend conferences regularly.

Reporting Periods:

Semester 1: September 5, 2023 - January 30, 2024

Semester 2: February 1, 2024 - June 26, 2024

Progress Reports Issued

A formal end of term progress report will be released on January 30, 2024 and June 26, 2024 and will include teacher comments. Parents and students will be able to access the progress reports through [SchoolZone](#)¹ (if you require your username and password, please contact the school and ask for Mrs. Amine Issa). If you require a paper copy, please email the school or have your child see their assigned administrator:

- Grade 10 - Mrs. Weinberger
- Grade 11 - Mr. Wong
- Grade 12 - Mrs. Engstrom

Individual Student Reports

The term *individual student report* refers to the report generated through the use of the Individual Student Report Module in PowerTeacher Pro by teachers at various times throughout the year. This report communicates information about a student's marks for specific assignments and activities.

Individual Student Reports will be issued at the midpoint of each course and released through SchoolZone on:

- Semester 1: October 26, 2023
- Semester 2: April 4, 2024

In addition to the above dates, student interims will be uploaded and released through SchoolZone on the first Monday of each month, with the exception of September and February. Teachers may choose to release additional Individual Student Reports at any time throughout the course.

Conferences

Schools must establish at least two formal parent teacher conferences per year (one in each school semester).

Each semester, Eastglen will host a hybrid parent teacher conference where families can choose to attend either an in-person meeting or a video meeting via Google Meet. To book a conference time, families will need to login to our Eastglen [Conference Manager](#) and make their selection(s). Conference dates are:

- Semester 1: November 2, 2023
- Semester 2: April 11, 2024

¹ Throughout this Assessment document you will see SchoolZone referenced. SchoolZone gives you access to important school news and student information such as attendance, marks including missing assignments and assessments, progress reports, IPPs and EAL Proficiency Benchmarks. If you don't have your SchoolZone login information please contact Eastglen and ask for Mrs. Amine Issa.

Individualized Program Plans (IPPs)

For students who need specialized services and supports, the IPP is a working document that is developed within the first two months of the school year. It is a record of your child's progress related to specific goals and strategies. It gives you confirmation that your child's needs are being addressed and provides information about accommodations and supports your child needs to succeed. The IPP is reviewed at least three times a year. We expect you and your child (as appropriate) to provide input into the IPP.

IPP planning conferences will take place in September through various channels, such as email, Google Meet, or telephone conference, in order to co-develop your child's IPP. Guardians are a vital part of the IPP team and we value your input; please complete the Guardian Input Form that will be sent to you by your child's IPP coordinator. Your child's IPP will be completed and uploaded to SchoolZone by November 30, 2023 and ready to be signed either digitally on SchoolZone or a paper signature.

IPP review dates will be:

- January 30, 2024 - first review date
- April 19, 2024 - second review date
- June 26, 2024 - year end summary

If you require a paper copy, please email the school or have your child see their IPP coordinator.

English as an Additional Language (EAL) Proficiency Assessments

For students learning English, the EAL Proficiency Assessments measure English abilities in four areas: listening, speaking, reading and writing. Teachers use a variety of tools each year to help them plan lessons and communicate with you about your child's progress in learning English.

English as an Additional Language (EAL) students new to Eastglen are assessed upon arrival and, when appropriate, assigned to a sheltered EAL classroom which teaches both content and English simultaneously.

At the beginning of each school year, EAL Proficiency Benchmarks (assessing: reading, writing, listening, and speaking) will be completed and uploaded to [SchoolZone](#) by November 30, 2023. EAL Proficiency Benchmarks are used to monitor the language proficiency of English as an Additional Language learners as well as for planning for language instruction. Parents wishing to discuss their child's Benchmarks, are encouraged to contact the school to schedule a conference.

Grades/Marks and Codes

To determine your child's grade/mark at the end of a reporting period, teachers use evidence of what your child has learned and their professional judgment.

Percentages are the only grades/marks used for formal reporting in Grade 10 to Grade 12.

Exemplary—A (80–100%)	Proficient—B (65–79%)	Adequate—C (50–64%)	Limited—D (0–49%)
<i>(Adapted from Alberta Programs of Study)</i>			
<ul style="list-style-type: none"> Learning goals are met in an astute and comprehensive way. Assignments are well crafted, organized in a purposeful fashion, and demonstrate attention to precise details. Demonstrates an in-depth understanding and degree of skill on summative assessments. Has assembled an in-depth understanding of the concepts, generalizations and skills fundamental to the program. 	<ul style="list-style-type: none"> Learning goals are met in a practical and thorough way. Assignments are complete, organized in a competent fashion, and demonstrate attention to relevant details. Demonstrates a substantial understanding and degree of skill on summative assessments. Has assembled a thorough understanding of the concepts, generalizations and skills fundamental to the program. 	<ul style="list-style-type: none"> Learning goals are met in an appropriate and reasonable way. Assignments are generally complete, organized in an acceptable fashion, and demonstrate attention to predictable details. Demonstrates a satisfactory understanding and degree of skill on summative assessments. Has assembled a basic understanding of the concepts, generalizations and skills fundamental to the program. 	<ul style="list-style-type: none"> Student has demonstrated insufficient performance in relation to learner outcomes.

Division-Approved Term and End of Course Codes:

On your child's Progress Report, a teacher may use these Division codes for term or end of course grades/marks.

IEA	Insufficient Evidence Available	IEA is used only as a term mark when a teacher does not have enough evidence about a student's progress to give a mark at the end of a term.
WDR	Withdrawal	WDR is used only as an end of course mark when a student chooses not to complete a course and the school agrees to withdraw the student from the course. WDR may be used for all courses.
INC	Incomplete	Incomplete is used only as an end of course mark when a student does not withdraw from a Career and Technology Studies (CTS) course and does not successfully complete the course with a mark of 50 per cent or more. No mark is submitted to Alberta Education and the course does not appear on the student transcript. INC is used only for CTS courses.

Division-Approved Codes for use on Individual Student Reports

- These reports are issued before the end of term in SchoolZone.
- On your child's individual student reports, a teacher may use these Division codes.

The following codes provide information about exceptional circumstances regarding the collection of evidence.

OMIT	Omit	Evidence has already been or will be collected to inform professional judgment.
IEA	Insufficient Evidence Available	Sufficient evidence is not yet available.
RNE	Replaced with New Evidence	This evidence has been replaced with more relevant evidence that demonstrates student understanding of the expected learning outcome.

The following codes provide information about evaluation of student achievement and growth.

E	Exemplary	Student has exemplary knowledge, skills, and understanding of concepts and is able to transfer understanding independently in new situations. Student may require support to further extend understanding of concepts.
P	Proficient	Student has proficient knowledge, skills, and understanding of concepts that can be applied in familiar situations. Student may require occasional support to transfer learning to new situations.
AD	Adequate	Student has adequate knowledge, skills, and understanding of concepts. Student requires support and/or further experiences to develop a deeper understanding of concepts and apply learning in familiar and new situations.
L	Limited	Student has limited knowledge, skills, and understanding of concepts. Student requires support to develop and apply learning in highly structured situations.
IEA	Insufficient Evidence Available	Sufficient evidence is not yet available to provide an informed judgment of student achievement and growth.

How We Determine Student Grades/Marks

At Edmonton Public Schools, we determine grades/marks in a variety of ways.

Formative Assessment

Throughout the year, your child will work on many activities that help them increase what they know, understand and are able to do. These activities show your child's teacher how they are doing, what their strengths are and where they can improve in relation to the Alberta Programs of Study. This is called formative assessment.

Teachers use this information to adjust their teaching, give your child feedback to help them improve and prepare your child for times when they will receive grades.

Summative Assessment

During the school year, your child will have a chance to show what they have learned in relation to the Alberta Programs of Study. Using their judgment as professionals, teachers make decisions and determine grades that describe how your child is learning. They base these decisions on what they've seen your child do (observations), discussions they've had with your child (conversations) and the work your child has completed (products).

Missing or Incomplete Student Work

Principals must make sure that teachers communicate with parents/guardians promptly and regularly about missing or incomplete student work. This is outlined in Administrative Regulation [GKB.AR Standards for Evaluation](#), section 4:

4. Principals must work with their teachers to comply with the following:
 - a. evidence of student achievement has been collected by the teacher;
 - b. communication plans for reporting student achievement and growth to parents/guardians are developed and aligned with school-wide assessment and intervention plans;
 - c. a student has been given multiple opportunities and ways to demonstrate his/her learning;
 - d. follow up has occurred to determine the reason when a summative assessment item (assignment, test, project, etc.) is missing or incomplete, and that opportunities for the student to fulfill the requirement of the summative assessment item (assignment, test, project, etc.) are provided;
 - e. if the student continues to be unsuccessful, the student/parents/guardians will be informed and the teacher will solicit a solution in consultation with the student's parents/guardians to hold the student accountable and/or plan for further learning;
 - f. teachers will engage in on-going, timely communication with parents/guardians/students and the principal regarding missing or incomplete work; and providing 4. b–f have been followed, the teacher can assign the student a mark of zero for that missed summative assessment item (assignment, test, project, etc.).

At Eastglen, our teachers and administrators create assessments that carefully align with the Program of Studies' outcomes. We want every student to complete all the assessments on time. However, if your child is absent for a summative assessment, we expect them to make it up as soon as possible after the original date (typically within one week). Here's what happens when students miss an assessment:

1. Teachers will enter a temporary placeholder of 0% in Powerteacher Pro and write a log entry into PowerSchool. The use of a zero as a temporary placeholder is used to simply communicate to students the terminal effect of incomplete

work, because the use of a zero as a temporary placeholder provides an immediate calculation of a current grade for a student. This temporary grade will be replaced once the student completes the assessment or with new evidence.

- Even high school students greatly benefit from parental involvement and encouragement. Regularly checking your child's marks and addressing any missing assessments promptly can have a significant positive impact on their academic journey and success. When you notice any missing assessments, have a conversation with your child and reach out to their teacher - together we are your child's strongest allies. Your active involvement demonstrates that education is important and reinforces the message that you are invested in their success.

2. Teachers will contact guardians to inform them of a student's absence during a major assessment; please ensure that we have your most current contact information on file to ensure effective and timely communication.

3. The teacher will meet with the student to provide them with opportunities to complete the assessment. The teacher will document this alternate arrangement in PowerSchool. Students will be given multiple opportunities to complete the missed assessment either before or after school, during lunchtime, or, if applicable, during their spare.

4. If a student still does not complete missing assessments prior to the final reporting period, the student's grade will be adjusted to reflect the lack of evidence of student learning including officially assigning a mark of zero for missed assessment items.

If there are numerous incomplete major summative assessments, the teacher will consult with their Department Head and administration in order to evaluate the student's understanding of all the outcomes in the Program of Studies. Students with numerous incomplete assessments might receive a failing mark or a final grade of WDR (Withdrawn) because without sufficient evidence teachers are unable to assess whether a student has achieved the acceptable level of understanding of the curriculum.

Course Outlines

At Eastglen School, course outlines are provided at the beginning of each semester. The purpose of each course outline is to provide a comprehensive overview, structure, and expectations of each course.

Curriculum Summaries

[Curriculum at a Glance](#) (Alberta Education)

The Role of Homework

Homework is meant to:

- help support your child's learning.
- reinforce what your child learned in school.
- give your child more practice.

At Eastglen School, our homework expectations are founded on the belief that homework is important because it develops core skills that will help you prepare for postsecondary rigor and the workforce. Research has repeatedly found that homework improves grades, discipline of practice, time management, using resources, and communication (Cooper, Civey and Patall, 2006). Students are expected to complete all of their assignments on time and write examinations on the day that they are scheduled. Throughout each semester, we post interim reports and contact the guardians of students who are missing major assessments or struggling academically.

Academic Integrity

Cheating is not acceptable. This includes plagiarism (copying someone else's work and passing it off as your own), copying, stealing tests or assignments and getting answers for a test or assignment in advance. Cheating also includes giving answers or work to others to claim as their own.

If your child is suspected of plagiarism or cheating, school administration will meet with them and take action in accordance with Administrative Regulation [HG.AR Student Behaviour and Conduct](#).

Grades/Marks Appeal Process

To appeal the grade/mark your child has been given, contact the classroom teacher. If you can't resolve the appeal with the teacher, the principal will make a decision and explain it to you. The principal's decision is final. A principal's authority to do this is set out in the [Education Act](#).

In early July, there will be a day to contact the school to appeal June final marks. When this date is set, we will communicate it to you.

The Role of Large Scale Tests

What is the Math Intervention/Programming Instrument (MIPI)?

The **Math Intervention/Programming Instrument (MIPI)** measures students' knowledge of the previous year's math curriculum. It shows teachers how well students understand different math concepts so they can identify appropriate programming for students.

Who takes the MIPI?

- students in Math 10C, including those in French immersion programs

The MIPI test(s) will be administered during the administration window September 5–22, 2023. For students writing the MIPI in the second semester, the administration window will be from February 1–16, 2024.

What is the Grade 12 Diploma Examinations program?

The **Grade 12 Diploma Examinations Program**:

- certifies the level of individual student achievement in selected Grade 12 courses
- helps maintain province-wide standards of achievement
- reports individual and group results

For all 30-level diploma courses, the school mark will be weighted at 70 per cent of the student's final mark, and the diploma examination mark will be weighted at 30 percent of the final mark. To pass a diploma course, a student must earn a final 'blended' mark of at least 50 per cent.

More information about the Diploma Examination Program is available online at [Diploma exams](#).

The diploma exam schedule for 2023-2024 can be found at [Diploma exams - overview](#).

The 2024 AP Exams will be administered in schools over two weeks in May: May 6 - 17. Please note that late testing (other than those published by College Board) is not permitted under any circumstance.

- Chemistry: May 6, 2024 at 12 p.m.
- English Literature and Composition: May 8, 2024 at 8 a.m.
- Psychology: May 9, 2024 at 12 p.m.
- Art Portfolio Submission: May 10, 2024
- European History: May 10, 2024 at 8 a.m.
- Biology: May 16, 2024 at 12 p.m.
- Calculus: May 13, 2024 at 8 a.m.
