Updated: Sept. 5, 2025

## School Assessment Plan 2025–2026, Kindergarten to Grade 9

At Edmonton Public Schools, we're committed to enhancing pathways for student success. One of the ways we help enhance pathways for student success is by improving the way we assess and evaluate what students learn. We also want to improve how we report back to you about how your child is doing at school.

This guide will help you understand:

- responsibilities of staff, students and parents/guardians.
- how we will tell you about your child's progress and learning.
- how we assign grades/marks to your child.
- how your child is assessed.
- the steps we take if your child's work is missing or not finished.

### What is assessment?

In this plan, we use the term assessment to describe the process of determining what students have learned, and how well they have learned it.

Assessment is not just about tests and grades. Assessment means gathering information about what your child knows, understands and is able to do based on the Alberta curriculum and, if applicable, their Individualized Program Plan (IPP). Teachers cannot base grades/marks on your child's behaviour, effort and work habits unless those behaviours are outlined in the Alberta curriculum for a specific subject.

Teachers can collect evidence of your child's learning in many different ways. Conversations, observations and student work are just some of the ways teachers determine students' strengths and where they might need extra help. These activities—conversations, observations and the products students create—help teachers shape their lesson plans. They guide *how* they can help every student meet their learning goals. The activities also help inform the teacher's understanding when making decisions about grades/marks. The collection of a variety of evidence allows teachers to give you a clear and accurate picture of your child's learning.

### How to support your child's learning

As a parent or guardian, you are your child's first teacher. So, understanding how your child is doing in school is important. Read this guide, and contact the school or make an appointment to see your child's teacher or principal if you have any questions.

## Supporting Student Success

---

We all have a role to play in helping your child be successful.

### **You can support your child's learning by:**

- working in partnership with school staff.
- providing a quiet place for your child to study at home.
- staying informed and keeping in touch with school staff. This includes reading information from SchoolZone, newsletters and other school materials.
- attending parent-teacher conferences.

### **Teachers will help your child succeed by:**

- providing programming that is appropriate for your child.
- providing many opportunities and different ways for students to show what they know.
- giving students who have missed important assessments and activities the chance to complete the work.
- clearly explaining what is expected of students in all courses and how student work will be graded/marked (i.e., course outline).
- keeping detailed, accurate notes describing your child's successes and areas for growth.
- communicating with you regularly about your child's progress and achievement.
- providing opportunities for you to be involved in your child's learning.

### **Students have a responsibility for their own learning and are expected to:**

- come to school on time every day.
- finish their assignments, projects and tasks to the best of their ability.
- participate in learning activities.
- regularly review what has been taught and ask for help when required.
- use opportunities to revise or retake assignments or tests to demonstrate growth in knowledge and skills.

## Our Communication Plan for Reporting Student Progress

---

There are many ways we help you stay informed about your child's learning throughout the year. We encourage you to review your child's reports and attend conferences regularly.

### Reporting Periods

Term 1: August 28, 2025 - January 27, 2026

Term 2: January 28, 2026 - June 23, 2026

### Progress Reports Issued

January 27, 2026 - Progress Report #1

June 23, 2026 - Progress Report #2

All progress reports will be uploaded electronically to SchoolZone. You will be able to view and print your child's progress report via SchoolZone. If you require a paper copy to view your child's progress report, please contact the school office.

### Conferences

Schools must establish at least two formal parent-teacher conferences per school year.

#### Kindergarten

The purpose of the fall Kindergarten conference will be to share information with families about their child's developmental readiness and learning progress.

Term 1 Learning Conference: November 4-6, 2025

Term 2 Learning Conference: April 14-16, 2026

#### Grade 1 to Grade 6

During our fall conferences, which will take place from November 4-6, teachers will share updates on your student's progress during the fall. Additionally, from April 14-16, students will participate in a celebration of learning.

Term 1 Learning Conference: November 4-6, 2025

Term 2 Learning Conference: April 14-16, 2026

### **Individualized Program Plans (IPPs)**

For students who need specialized services and supports, the IPP is a working document that is developed within the first two months of the school year. It is a record of your child's progress related to specific goals and strategies. It gives you confirmation that your child's needs are being addressed and provides information about accommodations and supports your child needs to succeed. The IPP is reviewed at least three times a year. We expect you and your child (as appropriate) to provide input into the IPP.

Parental and student input for Individual Program Plans (IPPs) will be collected in September. Teachers will gather this input through online forms and/or conversations.

The IPP review dates are scheduled for November 28, 2025; March 27, 2026; and June 23, 2026. They will be ready for signatures by the fall conferences. Completed IPPs will be posted on SchoolZone on June 23, 2026. Any parent who wishes to obtain a paper copy of their child's IPP can either print it from SchoolZone or contact the school office to arrange for a paper copy to be sent home.

### **English as an Additional Language (EAL) Proficiency Assessments**

For students learning English, EAL Proficiency Assessments measure English abilities in four areas: listening, speaking, reading and writing. Teachers use a variety of tools each year to help them plan lessons and communicate with you about your child's progress in learning English.

If your child's first language is not English, and your child is currently learning English at a beginner or intermediate level, the teacher will also be sharing the EAL Proficiency Benchmarks with you during our fall conferences or they will be included on the November Progress Report.

## Evaluating Student Achievement

To determine your child's grade/mark at the end of a reporting period, teachers use professional judgment based on evidence of what your child has learned.

At Donnan School, student grades/marks are reported using written performance descriptors: Exemplary, Proficient, Adequate, or Limited for students in Grades 1-6 and the learning outcomes continuum. Students in Kindergarten do not receive a grade/mark.

If a student is unable to perform at the grade level in which they are enrolled (performance is limited), teachers will adapt the curriculum to meet the student's learning needs. The Grade level of programming will be reported on progress reports and individual program plans for core subjects.

Exemplary—A (80–100%)	Proficient—B (65–79%)	Adequate—C (50–64%)	Limited—D (0–49%)
<ul style="list-style-type: none"> <li>• Demonstrates extensive knowledge required to meet outcomes.</li> <li>• Demonstrates an insightful understanding of the concepts relating to outcomes.</li> <li>• Demonstrates the skills and processes embedded in outcomes in an efficient manner.</li> </ul>	<ul style="list-style-type: none"> <li>• Demonstrates substantial knowledge required to meet outcomes.</li> <li>• Demonstrates a logical understanding of the concepts relating to outcomes.</li> <li>• Demonstrates the skills and processes embedded in outcomes in an effective manner.</li> </ul>	<ul style="list-style-type: none"> <li>• Demonstrates sufficient knowledge required to meet outcomes.</li> <li>• Demonstrates a basic understanding of the concepts relating to outcomes.</li> <li>• Demonstrates the skills and processes embedded in outcomes in an acceptable manner.</li> </ul>	<ul style="list-style-type: none"> <li>• Student has not yet demonstrated sufficient knowledge required to meet outcomes.</li> <li>• Student has not yet demonstrated a basic understanding of the concepts relating to outcomes.</li> <li>• Student has not yet demonstrated the skills and processes embedded in outcomes in an acceptable manner.</li> </ul>
<p>Extensive - <i>ideas and/or actions provide extension or enriched thinking</i></p> <p>Insightful - <i>accurate and deep understanding</i></p> <p>Efficient - <i>ability to produce desired results with minimal steps or effort</i></p>	<p>Substantial- <i>a considerable amount of ideas or degree of a desired quality</i></p> <p>Logical - <i>using reason in an orderly and compelling fashion</i></p> <p>Effective - <i>producing a result that is wanted</i></p>	<p>Sufficient - <i>shows enough evidence of having met the criteria or requirements</i></p> <p>Basic - <i>simple or merely functional</i></p> <p>Acceptable - <i>meeting minimum criteria or requirements in a way that is agreeable to others</i></p>	<p>* Taken from: AAC Rubric Wordsmith at <a href="http://www.aac.ab.ca/go">www.aac.ab.ca/go</a> and <a href="#">Performance Standards Word List</a></p>

## Grade Level of Programming (GLP)

GLP shows the current grade level at which a student is being taught. This is usually the same grade in which a student is enrolled. GLP appears on each progress report for English Language Arts, Math, and French Language Arts. For all other subjects, in situations where the GLP differs from the grade level of enrollment, the GLP will be indicated in the comments of the progress report. Parents will be involved in the decision to program a student at a grade level different from the grade level of enrollment.

## End-of-Term and End-of-Course Codes

On your child's progress report, a teacher may use these Division codes in place of end-of-term and/or end-of-year performance descriptors/letter grades/ percentage marks.

Code	Meaning	Uses
<b>IEA</b>	Insufficient Evidence Available	<ul style="list-style-type: none"> <li>IEA is used only as an <b>end-of-term</b> code when a teacher does not have enough evidence about a student's progress to give a grade/mark at the end of a term. IEA is <b>not</b> used as a final course code.</li> </ul>
<b>NGC</b>	Not on Graded Curriculum	<ul style="list-style-type: none"> <li>NGC is used as an <b>end-of-term code</b> when a student, identified as having special education needs as documented on the student's IPP, is receiving modified programming, and therefore no grade or mark is provided.</li> <li>NGC is used as an <b>end-of-course code</b> when a student is provided a code of NGC in one or both terms.</li> <li>Teachers who use the end-of-term or end-of-course code NGC for Mathematics and/or English Language Arts/English Language Arts and Literature on a student's progress report will leave the GLP blank when reporting GLP.</li> </ul>
<b>CMU</b>	Course Mark Unavailable	<ul style="list-style-type: none"> <li>CMU may be used at the <b>end of a course when a student is provided a code of IEA</b> in at least one or both terms.</li> <li>CMU indicates that a teacher does not have enough evidence over an entire course to give a final grade/mark.</li> </ul>

## Codes for use on Individual Student Reports (ISRs) in SchoolZone:

On your child's individual student reports issued before the end of a term, a teacher may use these Division codes.

The following codes provide information about how each assessment given to your child has been evaluated:

<b>OMIT</b>	Omit	Evidence has already been or will be collected to inform professional judgment.
<b>IEA</b>	Insufficient Evidence Available	Sufficient evidence is not yet available. This code is given when a student has not completed the assessment or the teacher cannot be certain that it was completed by the student.
<b>RNE</b>	Replaced with New Evidence	This evidence has been replaced with more relevant evidence that demonstrates student understanding of the expected learning outcome.

### ISR Approved Codes for Evaluation of Student Achievement and Growth

The following codes provide information about how each assessment given to your child has been evaluated:

<b>E</b>	Exemplary	The student has exemplary knowledge, skills, and understanding of concepts and is able to transfer understanding independently in new situations. The student may require support to further extend understanding of concepts.
<b>P</b>	Proficient	The student has proficient knowledge, skills, and understanding of concepts that can be applied in familiar situations. The student may require occasional support to transfer learning to new situations.
<b>AD</b>	Adequate	The student has adequate knowledge, skills, and understanding of concepts. The student requires support and/or further experiences to develop a deeper understanding of concepts and apply learning in familiar and new situations.
<b>L</b>	Limited	The student has limited knowledge, skills, and understanding of concepts. The student requires support to develop and apply learning in highly structured situations.

## How We Determine Student Grades/Marks

---

At Edmonton Public Schools, we determine grades/marks in a variety of ways based on evidence gathered. Throughout the year, your child will have many opportunities to demonstrate what they know, understand, and are able to do in relation to the Alberta curriculum.

Evidence of learning is gathered through various methods including:

- Observations: What teachers notice your child doing in class such as presentations, group activities, demonstrations.
- Conversations: Evidence of learning from discussions teachers have with your child about their learning which might include having them elaborate on their thinking and reasoning in order to better understand what they have learned.
- Products: Evidence collected through projects, assignments and tests.

Ongoing collection of evidence of learning helps teachers understand your child's strengths and areas for growth. Teachers use this information to adjust their teaching, provide feedback to help your child improve, and make professional judgements when determining grades to reflect your child's learning.

### Missing or Incomplete Student Work

Principals must make sure that teachers communicate with parents/guardians promptly and regularly about missing or incomplete student work. This is outlined in Administrative Regulation [GKB.AR Standards for Evaluation](#), section 4:

4. Principals must work with their teachers to comply with the following:
  - a. evidence of student achievement has been collected by the teacher;
  - b. communication plans for reporting student achievement and growth to parents/guardians are developed and aligned with school-wide assessment and intervention plans;
  - c. a student has been given multiple opportunities and ways to demonstrate his/her learning;
  - d. follow up has occurred to determine the reason when a summative assessment item (assignment, test, project, etc.) is missing or incomplete, and that opportunities for the student to fulfill the requirement of the summative assessment item (assignment, test, project, etc.) are provided;
  - e. if the student continues to be unsuccessful, the student/parents/guardians will be informed and the teacher will solicit a solution in consultation with the student's parents/guardians to hold the student accountable and/or plan for further learning;
  - f. teachers will engage in on-going, timely communication with parents/guardians/students and the principal regarding missing or incomplete work; and
  - g. providing 4. b–f have been followed, the teacher can assign the student a mark of zero for that missed summative assessment item (assignment, test, project, etc.).

When your child has missing or incomplete work, we will:

- discuss the missing and/or incomplete work with the student,
- work collaboratively with students when constructing homework expectations and guidelines,
- make contact with the parent and/or guardian via student agenda, phone call, email or meetings to inform them of the incomplete work,
- work with your child during instructional and non-instructional times such as recess, lunch hour, and sports alternative times to help them complete the work or assignments.

- provide one on one, peer or small group support where appropriate and possible,
- provide alternative methods for students to demonstrate their learning,
- provide flexible assessment timelines where necessary to support student learning

## Curriculum Summaries

[Curriculum at a Glance](#) (Alberta Education)

## The Role of Homework

Homework is meant to:

- help support your child's learning
- reinforce what your child learned in school
- give your child more practice

At Donnan School, our homework policies include using agendas, SchoolZone and/or Google Classroom to inform students and parents of what work needs to be completed. We expect students to be responsible for monitoring their homework. Homework may be assigned if the work is not completed in class, or if it is an assignment or project that requires more than regular class times to complete.

Homework also consists of reviewing, studying and preparing for in class assessments such as tests. We believe the most important thing for your child to do every day is READ. Reading is a foundational skill and the more confident a student becomes, the more success they will experience in their academics.

## Academic Integrity

Cheating is not acceptable. This includes plagiarism (copying someone else's work and passing it off as your own), stealing tests or assignments and getting answers for a test or assignment in advance. Cheating also includes giving answers or work to others to claim as their own.

If your child is suspected of plagiarism or cheating, school administration will meet with them and take action in accordance with Administrative Regulation [HG.AR Student Behaviour and Conduct](#).

## Grades/ Marks Appeal Process

To appeal the grade/ mark your child has been given, contact the classroom teacher. If you can't resolve the appeal with the teacher, contact the principal who will make a decision and explain it to you. The principal's decision is final. A principal's authority to do this is set out in the [Education Act](#).

## Supporting Responsible Artificial Intelligence Use

---

At Edmonton Public Schools, we are dedicated to creating dynamic learning environments that value accountability, collaboration, equity and integrity. As technology evolves, Artificial Intelligence (AI) is becoming a part of our world. We want to help students use it responsibly and ethically to enhance their learning. This information outlines how AI might be used to support student achievement.

### Division I and II

For younger learners at the Division I and II level, there may be use of AI tools by students.

#### AI: A Helpful Tool

- **A Supporting Tool, Not a Replacement:** AI tools can help with teaching and learning. For example, a teacher might use AI to create a fun, personalized learning game.
- **Helping to Understand Student Progress:** AI can offer support in understanding how your child is learning.

#### Academic Integrity with AI

Students are expected to use school and personal technology, including AI tools, appropriately and ethically, according to the Responsible Use of Technology Agreement for Students that will be provided to you. They should conduct themselves with academic integrity, which is consistent with [HG.BP Student Behaviour and Conduct](#) that states, “Academic integrity is honest and responsible academic behaviour. Students are expected to submit original work, acknowledge sources used including AI, and conduct themselves ethically in the completion of assessments and examinations.”

#### Conversations About AI

AI can be a positive addition to elementary classrooms. For success, clear communication is key. Parents are welcome to have conversations with teachers regarding AI use in the classroom.

New technologies bring many different possibilities. Introducing AI in a thoughtful and age-appropriate manner can help to support student learning.

## DIV III

### AI: A Tool to Empower, Not Replace Learning

**A Complementary Tool:** The use of AI tools, like Google Gemini in the classroom can be used to support and complement effective teaching and learning processes.

**Personalized Support for Learning:** AI can support instruction by assisting teachers in providing personalized learning resources to support student learning and progress.

**Enhancing Assessment:** AI tools can play a supportive role in achieving the primary goals of assessment: to improve student learning and provide valid and reliable information to students and parents/guardians about student progress related to the [Alberta curriculum](#).

### Academic Integrity with AI

Students are expected to use school and personal technology, including AI tools, appropriately and ethically, according to the Responsible Use of Technology Agreement for students. They should conduct themselves with academic integrity, which is consistent with [HG.BP Student Behaviour and Conduct](#) which states, “Academic integrity is honest and responsible academic behaviour. Students are expected to submit original work, acknowledge sources used including AI, and conduct themselves ethically in the completion of assessments and examinations.”

### AI in the Classroom: Empowering Students

Teachers have the discretion and flexibility to permit or encourage the use of AI for specific learning purposes such as:

- **Sparking Ideas:** AI can help brainstorm initial ideas for projects or essays.
- **Improving Writing:** AI can offer suggestions for grammar, style, and clarity, helping refine writing skills and expression.
- **Creating Learning Tools:** AI might be used to create visual aids, study guides, or other materials.
- **Receiving Feedback:** AI can provide quick feedback on practice questions or assignments, helping identify areas for improvement.
- **Learning About AI Itself:** Students will also have opportunities to learn about how AI works, understanding its capabilities and limitations in a safe and educational setting.

### Open Communication: A Partnership for Responsible AI Use

Open and clear communication between teachers, students, and parents is important to foster a culture of integrity around AI use.

- **Teachers:**
  - Share academic integrity expectations for each course.
  - Share and discuss the Responsible Use of Technology Agreement.
  - Provide guidance on the permitted uses of AI tools within their specific classroom contexts.
  - Review and update classroom expectations as AI technology evolves.
  - Apply professional judgment to effectively support students.
- **Students:**
  - Seek clarification from teachers regarding the appropriate use of AI in classroom activities and assessments.
  - Be transparent about the use of AI tools in their work, as required by their teachers.
  - Review and sign the Responsible Use of Technology Agreement.

- **Parents:**

- Have conversations with your child and teacher about classroom expectations regarding responsible uses of AI.
- Check in with your child about any challenges they are facing and help them find ways to support their own learning.

## The Role of Large-Scale Tests

---

### What are the Literacy and Numeracy Screening Assessments?

Alberta Education mandated Literacy and Numeracy Screening Assessments for all students in Kindergarten to Grade 3. These screening assessments will help teachers identify students in the critical early years who are most in need of additional support and provide a means to monitor growth over time. Below are descriptions of each assessment:

- The **Rapid Automatized Naming (RAN)** assesses children’s and students’ cognitive speed and automaticity of digit recognition.
- **The Phonological Awareness Screening Test (PAST)** assesses children’s and students’ phonemic awareness and proficiency.
- The **Castles and Coltheart 3 (CC3)** assessment is an English word-reading test designed to identify the nature of a student’s reading difficulties. The CC3 assesses a student’s ability to recall familiar and irregular words, and their ability to sound out non-words that were created specially for this assessment and are meant to be fictitious and without meaning.
- The **Letter Name-Sound (LeNS)** assesses a student’s ability to sound out single letters and letter combinations.
- The **Provincial Numeracy Screening Assessment** is a collection of tasks designed to help teachers understand their students’ underlying knowledge of the number system, basic number operations and proportional reasoning skills.

### Which Provincial Literacy and Numeracy Screening Assessments apply to each grade?

- **Kindergarten**
  - January, 2026
    - RAN
    - Kindergarten PAST
    - Kindergarten LeNS
    - Kindergarten Provincial Numeracy Assessment
- **Grade 1**
  - September, 2025
    - RAN
    - Grade 1 PAST
    - Grade 1 September LeNS
    - Grade 1 Provincial Numeracy Assessment
  - January, 2026
    - Grade 1 January LeNs
    - CC3
    - Grade 1 Provincial Numeracy Assessment
  - May, 2026 - For students identified in January as ‘at risk’ based on their scores
    - Grade 1 LeNs
    - CC3
    - Grade 1 Provincial Numeracy Assessment
- **Grade 2**
  - September, 2025
    - LeNS

- CC3
  - Provincial Numeracy Assessment
- January, 2026
  - LeNs
  - CC3
  - Provincial Numeracy Assessment
- May, 2026 - For students identified in January as 'at risk' based on their scores
  - LeNs
  - CC3
  - Provincial Numeracy Assessment
- **Grade 3**
  - September, 2025
    - CC3
    - Provincial Numeracy Assessment
  - January, 2026
    - CC3
    - Provincial Numeracy Assessment
  - May, 2026 - For students identified in January as 'at risk' based on their scores
    - CC3
    - Provincial Numeracy Assessment

The Literacy and Numeracy Screening Assessment administration dates will be posted on SchoolZone.

### What is the Canadian Achievement Test (CAT4)?

The **Canadian Achievement Test (CAT4)** measures students' reading comprehension, mathematics, computation and estimation skills. CAT4 will support instruction and planning for interventions and supports. The CAT4 is administered in the fall and again in the spring to provide information about student growth.

### Who takes the CAT4?

- students in Grade 4 to Grade 9 including French Immersion and bilingual programs

The CAT4 Fall administration dates are September 15, 2025–September 26, 2025.

The CAT4 Spring administration dates are April 27, 2026–May 8, 2026.

### What is the Highest Level of Achievement Test (HLAT)?

The **Highest Level of Achievement Test (HLAT)** measures students' writing skills compared with the Alberta curriculum in language arts.

### Who takes the HLAT?

- students in Grade 1 to Grade 9 in English Language Arts
- students in Grade 2 to Grade 9 in French Immersion and bilingual programs\*
- students in Grade 8 and Grade 9 in Late French Immersion

The HLAT administration dates for students in English Language Arts are April 13–April 17, 2026.

## What are Provincial Achievement Tests (PATs)?

The **Provincial Achievement Tests (PATs)** measure how well students across Alberta are learning content as described in the curriculum. Average PAT scores for the school are shared publicly to show how Alberta students are doing, compared to provincial standards. Results from PATs help schools, school authorities and the province monitor and improve student learning.

While PATs are an important part of determining student growth and achievement, they are one part of the assessment process.

According to **Alberta Education**:

“PATs are only one of many ways to evaluate student learning and are not meant to replace day-to-day teacher observations and classroom assessment. They are sources of information that must be interpreted, used and communicated within the context of regular and continuous assessment by classroom teachers.”

## Who takes PATs?

- Students in Grade 6 English Language Arts and Literature, Mathematics, Science and Social Studies write PATs.

## When are PATs administered?

- PATs are administered in the spring through the Digital Assessment Platform, Vretta (PATs may be administered in January for Division schools in a semestered program).
- PAT dates can be found on the [Provincial Achievement Tests website](#).

The Alberta government requires school divisions to report the scores from Grades 6 and 9 PATs to parents/guardians. We will report the results to parents/guardians in the following way: year end progress report and results will also be available on SchoolZone by mid-October 2026 for the current school year.
